INTRODUCTION

- The Student Mentorship and Guidance Management Portal is a centralized platform designed to connect students with mentors.
- It helps students receive academic support, career guidance, and personalized learning recommendations.
- The portal enables efficient mentor allocation, appointment scheduling, and communication between students and mentors.
- It tracks student progress, collects feedback, and improves the overall mentorship and learning experience.

PROBLEM STATEMENT

- Lack of Centralized Student Information: Student academic records, performance details, and learning goals are maintained separately, making progress tracking difficult.
- Inefficient Mentor Allocation: Assigning suitable mentors to students and managing mentorship appointments can be time-consuming and unorganized.
- Limited Guidance and Communication: Students may face difficulties accessing timely academic support, career guidance, and effective communication with mentors.
- Inadequate Progress Monitoring: The absence of systematic feedback collection and progress reports makes it difficult to identify student challenges and measure improvement.

OBJECTIVES

- **Smart Matching:** Pair by exact technical skills.
- **Unified Scheduling:** Automate faculty availability blocks.
- **Progress Tracking:** Monitor active milestone completion.

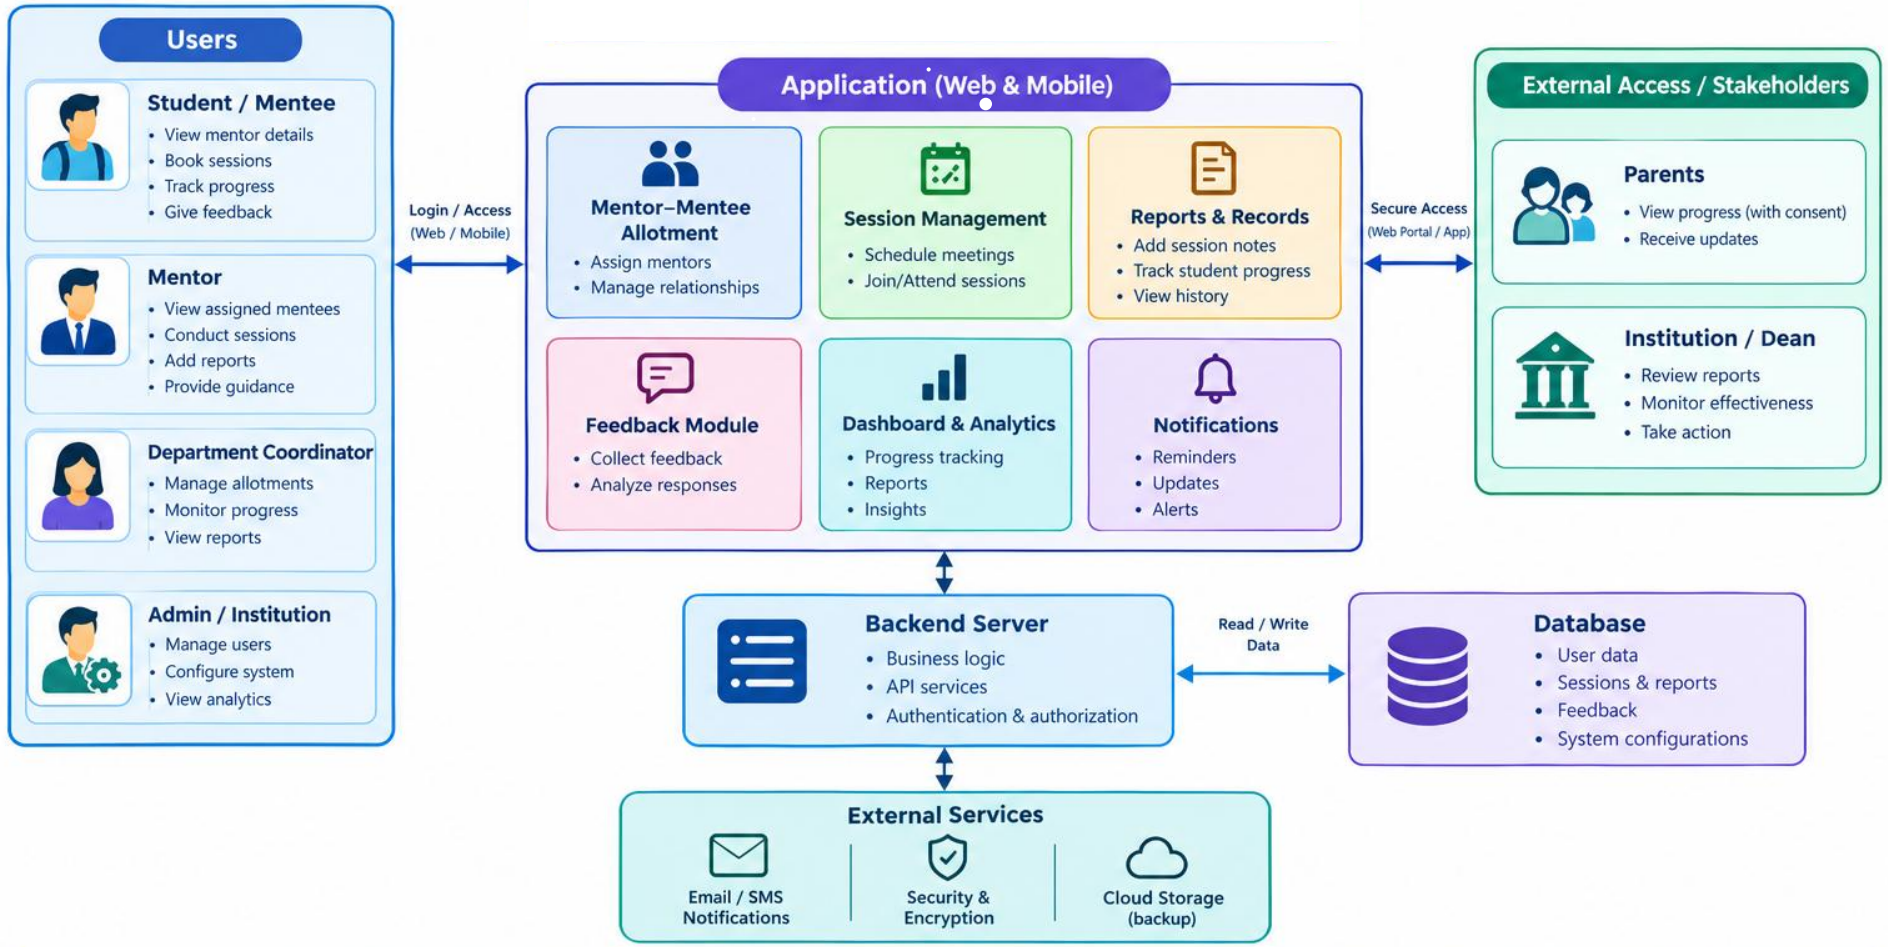

MODULES

Module 1:
Student Profile and Academic Progress Management

Module 2:
Mentor Allocation and Communication Management

Module 3:
Guidance, Feedback and Progress Monitoring

SYSTEM ARCHITECTURE

Application Features
(Why it's useful)

- ✓ Easy mentor–mentee communication
- ✓ Regular session scheduling
- ✓ Centralized reports and tracking
- ✓ Real-time notifications and reminders
- ✓ Feedback driven improvement
- ✓ Access for students, parents and institution

LITERATURE SURVEY

S. No	Research Paper	Year	Limitations
1	Guided Student Profile System: Mentor Feedback Integration	2024	Limited personalized guidance and progress tracking.
2	A Mentorship-Driven Decision Support Platform for Career Planning in Undergraduate Engineering Education	2026	Focuses mainly on career planning.
3	Bridging the Gap: Developing an Alumni Association Platform to Enhance Student Guidance and Institutional Connectivity	2025	Limited focus on continuous academic mentoring.
4	Enhancing Career Development: An AI-Driven Mentorship Platform for Student-Mentor Connections	2025	Primarily focuses on AI-based mentor connections.
